## GENERAL INFORMATION

### OUR PRODUCTS ARE:

- constructed around a forged metal frame, with 360-degree cold-cure molded foam,
- upholstered in high-quality fabric or leather provided by leading European suppliers,
- made with the best design talents, inspired by the best Scandinavian practices and created with stylish homes in mind,
- upholstered by people who take pride in complete mastery of their time-honored craft,
- with available environmentally friendly options for covers and bases.

	Metal frame with Flathead
	Metal spring
	Cold molded foam
	Leather / fabric

### DYNAMIC FOAM

To make our products more durable and uniquely comfortable, we use a material called cold-cure molded foam. This material is the reason our chairs retain their shape and flexibility year after year. The foam contains really small air pockets, tiny bubbles within its denser structure, which allows for just the right amount of firmness. After the foam is shaped, the cover is hand-sewn for it to fit perfectly. The result? Chairs that look elegant from all angles and will not sag.

### WARRANTY ON FOAM AND METAL FRAME

KEBE provide a **10-year warranty** on foam and the inside steel frame and springs.

		DETAILS
FUNCTIONS	Swivel	Smooth and soundless. The swivel base allows you to turn in any direction you wish.
	Push back recliner	Also known as 'manual recliner'. Allows you to recline the chair by pushing the backrest. It can be folded to various degrees, according to your preference.
	Electric function recliner	The smooth mechanism is powered by a battery, making you unfold the backrest with just a push of a button.
	Headrest Plus	This is a height adjustable headrest. This solution allows you to adjust the headrest vertically (up/down) and horizontally (front/back). It is built into selected chairs.
OPTIONS	Return swivel	Allows the chair to automatically swivel back into its original position once you stand up.
	Adjustable headrest	It's a front/back adjustment of a headrest that allows you to keep your head and neck lifted and supported while reclining and looking forward. The feature is either built-in (BUILT-IN) or you can choose it for selected models (OPTIONAL).
	Height other than standard	Height adjustment can be customized by +/-3 cm of the standard height, by changing the base module or the stem.
ACCESSORIES	Footrest	You can buy a footrest matching your chair for the recliners and other selected models. NOTE that in Power Recliners the footrest is already built-in.
	Head cushion	Our head cushions can be customized with any available color to match your chair.
